

ScienceResearch.com

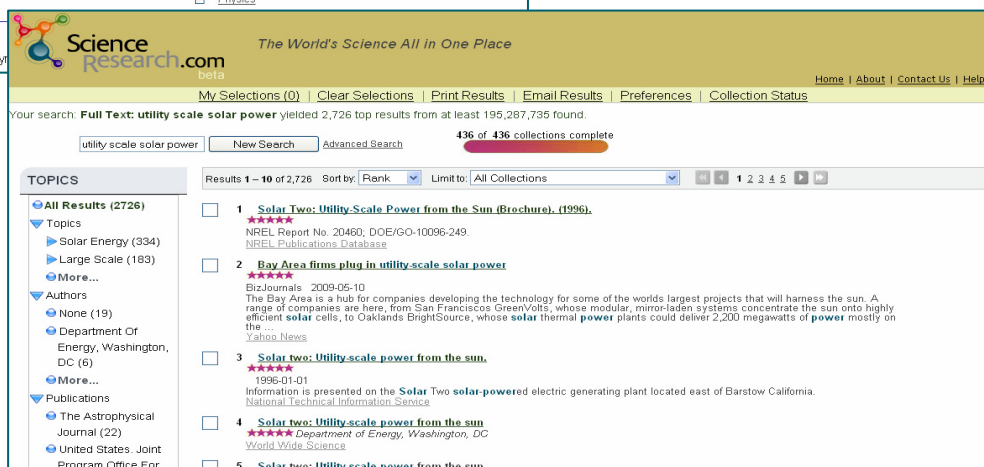

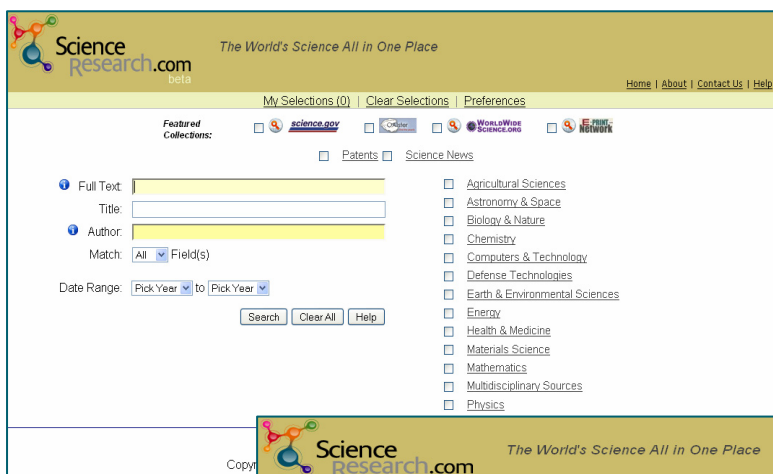

The World's Science, All in One Place.

Accelerated Science Research

ScienceResearch.com accelerates your research by returning the most relevant results from over 300 authoritative science and technology collections in one easily navigable page. *Each search is done in real-time*, searching the collections you select as if you were entering the search term on each separate website yourself. ScienceResearch.com removes duplicate results, and then weighs each result for relevance according to how closely it matches your search word or phrase.

Next Generation Search Tools

- **Leading research collections** - Each ScienceResearch.com collection is chosen for its outstanding contributions to the world of science.
- **Strong search parameters** - Our technology supports the strongest search operators and parameters for each collection, and includes support for specific phrases and complex Boolean operators.
- **Intuitive navigation tools** - From topical clustering to sort options, ScienceResearch.com offers you the best in navigation tools while keeping the interface simple.
- **Search individual collections** - ScienceResearch.com is truly a one-stop search website! Select up to three categories that you wish to search on the advanced search page, or select individual collections within each category for a more focused search.
- **Downloadable results** - Email or download your selected results to a citation reader for easy reference offline.
- **Five star ranking system** - ScienceResearch.com uses a state-of-the-art five star ranking algorithm to find the best result from the search.

Focus Deep. Get Results.
